

Advance your healthcare logistics performance

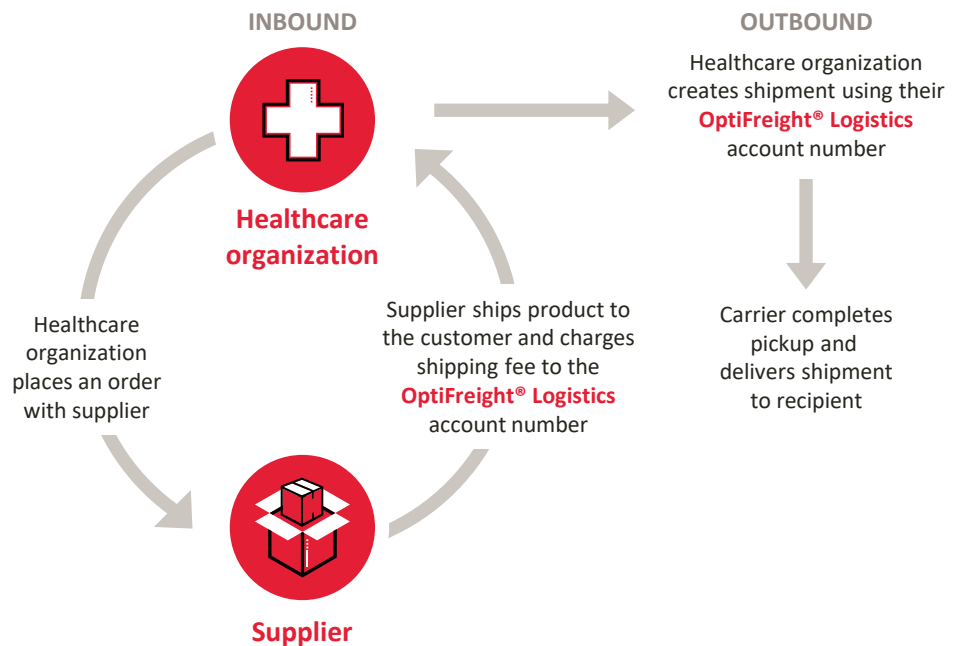

OptiFreight® Logistics, a leader in healthcare logistics management, focuses on serving the unique shipping and logistics needs of healthcare providers.

We work as an extension of your team to **improve inbound and outbound shipping operations by providing value through savings on shipments** that do not come from your distributor.

How it works

OptiFreight® Logistics manages over 20 million* shipments annually and leverages the aggregate shipping volume to achieve competitive shipping rates for our customers.

Utilize your OptiFreight® Logistics account to save on shipments, reduce supplier fees, increase visibility and consolidate reporting.

Providing ongoing value and logistics program management

OptiFreight® Logistics serves more than 2,000* healthcare organizations across the continuum of care including health systems, hospitals, pharmacies, laboratories and more.

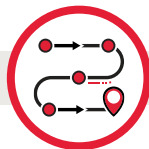

OptiFreight® Logistics provides:

Management of inbound, outbound, small parcel and large freight shipments

Competitive shipping rates and consultative account management

Supplier compliance, setups and monitoring

Robust audits and consolidated invoicing

Enhanced reporting and technology to drive savings and shipping efficiencies

OptiFreight® Logistics

Uncover efficiencies, control spend and optimize your shipping practices with our tailored solutions, committed experts, innovation and data-driven insights.
